Safety Instructions (Make sure to follow these instructions)

Caution Indicates that improper handling may cause injury or property damage.

- The aforementioned warning label is attached to this product in order to help prevent danger or harm to the life, body, and property of the product's user. so please abide by the warning
- Do not tear, damage, erase the text of, or remove the warning lahel

Avoid handling the product roughly or using it for applications other than those specified.

- Do not use this product as a platform to stand on or to transport things. This could cause it to overturn and lead to injuries.
- Gently place items onto the tabletop when doing so.

Do not put your fingers or hands into the spaces or moving parts of the product. This could lead to injuries.

• Do not touch the moving parts when moving the tabletop up or down. Your hands could become caught and injured.

Take heed of the following items in order to prevent damage or collapsing of the product.

- Do not lean against or sit on the table.
- Do not set heavy objects onto the corners of the tabletop.
- Do not move the product with items still placed on the tabletop.
- If the product has become unsteady due to loosening of the bolts or screws, retighten them.

• Do not use the product if any parts are separated from it.

Do not disassemble or repair the product.

- Disassembly or repairs by customers can be very dangerous, so instead contact our company's sales liaison.
- Do not use if the bolts or screws are loose. Doing so could cause the product to collapse and lead to injuries.

Do not attempt to restructure the product.

- Restructuring by the customer could lead to product malfunction. Also, our company is not responsible for any problems arising from such actions by the customer.
- If restructuring is necessary, contact our company's sales liaison in advance.

Do not place any items onto the table that exceed its maximum loading mass.

Loading part	Maxiumum loading mass
Tabletop	10kg (even distribution of mass)

※Even distribution of mass refers to:

The equal division of the weight of objects placed onto the tabletop. Disproportionate distribution of weight onto part of the surface will upset its balance and could cause it to collapse or fall over.

Installation Instructions

We are not responsible for any malfunction resulted from failure to observe the following precautions.

Use the product indoors.

 Do not use outdoors or places with water, as exposure to moisture could result in problems such as warping or the growth of mold.

Avoid keeping the product in direct sunlight as this could result in warping or fading of colors due to exposure to the sun.

 Always use curtains, blinds, or the like to protect the product from direct sunlight when installing it next to windows or the like.

Avoid placing the product in places exposed to high temperatures, humidity, or exceptional dryness as this can result in warping, color changes, or the growth of mold.

Avoid placing the product where it will be directly exposed to heat or moving air such as by stoves, air conditioners, or the like as this could result in warping or color changes.

Install the product so that its level surface is maintained.

- Maintain the level surface of the main unit when installing the product. If the product is installed without its level surface maintained, the main unit may become skewed, resulting in malfunction of moving parts.
- Use the adjuster to adjust the surface so that it is level with the floor surface.

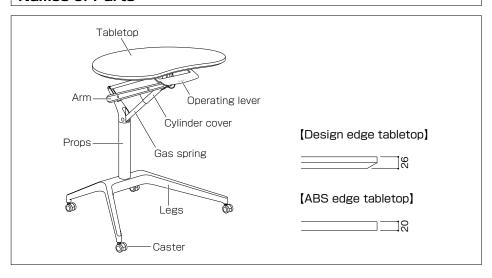

Appropriate ventilation measures

- Many chemical substances will be released by the product when it is first purchased. Sufficiently ventilate or expose the product to moving air for some time after purchasing it.
- Do not completely close windows when using the product in rooms with conspicuously high temperatures/ humidity (the benchmarks for these are temperatures in excess of 28°C and relative humidity in excess of 50%).
