Safety Instructions (Make sure to follow these instructions)

⚠ Caution Indicates that improper handling may cause injury or property damage.

⚠ Caution

Avoid handling the product roughly or using it for applications other than those specified.

- Do not use this product as a standing platform.
- Do not stand on, jump from, or lean against the chair, or sit on it in an unstable posture.
- Do not sit on any part of the product other than the seat surface.

Do not put your fingers or hands into the spaces or moving parts of the product. This could lead to injuries.

Do not disassemble or repair the product.

- Disassembly or repairs by customers can be very dangerous, so instead contact our company's sales liaison.
- Do not use if the bolts or screws are loose. Doing so could cause the product to collapse and lead to injuries.

Do not attempt to restructure the product.

Take heed of the following items in order to prevent damage or collapsing of the product.

- Do not use the product if you have discovered any abnormalities with it. Doing so could cause the product to collapse and lead to injuries.
- If the product has become unsteady due to loosening of the bolts or screws, retighten them.
- Do not use the product if any parts are separated from it.

- Restructuring by the customer could lead to product malfunction. Also, our company is not responsible for any problems arising from such actions by the customer.
- If restructuring is necessary, contact our company's sales liaison in advance.

Installation Instructions

We are not responsible for any malfunction resulted from failure to observe the following precautions.

Use the product indoors.

- Do not use outdoors or places with water, as exposure to moisture could result in problems such as warping or the growth of mold.

Avoid placing the product in places exposed to high temperatures, humidity, or exceptional dryness as this can result in warping, color changes, or the growth of mold.

Avoid placing the product where it will be directly exposed to heat or moving air such as by stoves, air conditioners, or the like as this could result in warping or color changes.

Avoid keeping the product in direct sunlight as this could result in warping or fading of colors due to exposure to the sun.

- Always use curtains, blinds, or the like to protect the product from direct sunlight when installing it next to windows or the like.

Install the product so that its level surface is maintained.

- Maintain the level surface of the main unit when installing the product. If the product is installed without its level surface maintained, the main unit may become skewed, resulting in malfunction of moving parts.

Appropriate ventilation measures

- Many chemical substances will be released by the product when it is first purchased. Sufficiently ventilate or expose the product to moving air for some time after purchasing it.
- Do not completely close windows when using the product in rooms with conspicuously high temperatures/humidity (the benchmarks for these are temperatures in excess of 28°C and relative humidity in excess of 50%).

Operation guide

■ Seat height adjustment (5 leg type only)

If while sitting the lever located in the seat rear left side is pulled upward, the seat will be lowered, and can be stopped at the desired position by releasing the lever. When raising the seat, keep your hips suspended above the seat surface while pulling the lever upward.

■ Stacking methods (Closing legs type only)

Pick up the lateral parts of the chair, and stack it onto the seat of the chair below it. If there are armrests, grasp the armrests and stack the product by inserting it inward at an angle as shown in the diagram.

⚠ Caution

- Take sufficient care to avoid pinching or fingers, clothing, or the like when stacking.
- Do not move the products while they are stacked. This could lead to collapse or damage of the products.

■ Specialized applications dolly (optional)

We recommend stacks of 22 units; the maximum is 30 units per stack. When moving stacks, grasp the bottom unit and move it straight lengthwise.

⚠ Caution

If you grasp an upper unit while doing so, the stack of chairs could collapse, resulting in damage to the product or injuries.

FAQ

Question	Check	Correspondence
Seat cannot be lifted up.	Are you fully sitting when adjusting seat height ?	Adjust seat height without any load on the seat.
	Is seat height in the highest position ?	Seat will not rise over the highest position.

	Is it tangled with lint or wool ?	Remove foreign object or replace the caster.
Casters are slipping.	Are you using urethane casters on hard floor such as plastic tile floor ?	Use rubber casters.
Chair makes noise.		Please contact our official dealer.

Instructions to Extend the Life of Product

We are not responsible for any malfunction resulted from failure to observe the following precautions.

Instructions for Use and Maintenance

- If the product has become unsteady due to loosening of the bolts or screws during use, retighten them immediately.
- Do not use in places exposed to vapors. This could cause rusting.
- If water has spilled onto the surface, wipe it away with a dry, soft cloth.
- This instruction manual is very important, so store it in an easily accessible location.
- Frequent maintenance of the product during its use is the key to making it last a long time. Immediately request inspections and repairs (fee required) from our company when the warranty period has expired.

Care

Regular care.

- For regular care wipe the chair with a soft, dry cloth.

Care precautions.

- Use commercial cleaners and the like after confirming that there has been no discoloration or the like to its inconspicuous parts.

Care when the product is very dirty.

- Dampen a soft cloth with a diluted (1~3%) neutral detergent solution, thoroughly wring out the cloth, and then wipe away the dirt. Afterwards, dry-wipe the product with a dry, soft cloth so that no detergent is left behind.
- ※About cloth covered parts and materials;
After lightly beating the surface, remove dust with a brush or vacuum cleaner.

Product code label

This product is affixed with a product code label inscribed with the product code and the like. Check the contents of the label when making inquiries or reordering the same kind of product.
